

Product Index Standard: GB25576-2020

Product Name	SD-260P	SD-260MP
Appearance	White powder	White Microbeads
DBP10-m ³ /kg	230-280	230-280
SiO ₂ Content %	≥96	≥96
Bulk Density g/L	190-240	190-240
PH	5.0-8.0	5.0-8.0
Soluble Salt%	≤ 2.5	≤ 2.5
Reduction on Heating %	≤7	≤7
Reduction on Ignition %	≤8.5	≤8.5
Total Heavy Metal Content mg/kg	≤10	≤10
Residues on 100 Mesh Sieve %	—	≥85

Product Description:

It has the advantages of high purity, low impurities, low moisture, large specific surface area, strong adsorption capacity, good dispersion performance and strong chemical stability. It is widely used in industries such as deoxidizer, lutein, flavors and fragrance, seasonings, dehydrated vegetables etc. It plays the role of flow aid, anti-caking, adsorption, carrier, filling, etc.
