

Product name: Soda Ash/Sodium Carbonate

CAS No.: 497-19-8

Molecular formula: Na_2CO_3

Molecular weight: 105.9888 g/mol

Country of Origin: China

Technical Index

Items	Unit	Grade light	Grade Dense
Content [Na_2CO_3]	% \geq	99.20	99.20
Chloride [NaCl]	% \leq	0.700	0.700
Sulphate [SO_4]	% \leq	0.030	0.030
Iron [Fe_2O_3]	% \leq	0.0035	0.0035
Water Insoluble	% \leq	0.030	0.030
Bulk density	% \geq	0.500	0.900
Particle size 180um sieve remaining	% \geq	80.00	70.00
Appearance		White powder	White powder

Uses:

1. Mainly used in the production of float glass, picture tube glass, optical glass etc..
2. Used in chemical industry, metallurgy, etc.
3. Used in the food industry as a neutralizer.
4. Used in pharmaceutical industry, as an acid antidote, osmotic laxative.
5. Used for chemical and electrochemical oil removal, chemical copper plating etc.
6. Used as water softening agent in printing and dyeing industry.

Packaging: 25kg/bag.
