

## 4-Fluorophenol (C<sub>6</sub>H<sub>5</sub>FO)

Product Name	4-Fluorophenol
Synonyms	p-Fluorophenol; Phenol,p-fluoro
Molecular Formula	C <sub>6</sub> H <sub>5</sub> FO
CAS No.	371-41-5
EC No.	206-736-0
Appearance	Crystalline Solid
Packaging	25kg/25kg/50kg/100kg/1000kg
HS Code	29081000

### Applications:

4-Fluorophenol is an important intermediate in medicine and pesticides. It is used in the pharmaceutical industry for the synthesis of insecticides, gastrointestinal drugs and antiviral drugs, in the agricultural field for the synthesis of herbicides, plant growth regulators and as an algaecide in environmental engineering.
