

Sr.	Name	Boiling point-NTP	Form	Purity ( other content can be customized)	CAS NO./Formula	Application
1	C318 Octafluorocyclobutane; Perfluorocyclobutane	-6.04°C	Colorless gas	≥999.95%	115-25-3 C <sub>4</sub> F <sub>8</sub>	Used as stable and non-toxic food aerosol spray, dielectrical gas, etching gas in the electronics industry.
2	R23 Trifluoromethane; Fluoroform	-84°C	Colorless gas	≥99.9995%	75-46-7 CHF <sub>3</sub>	Used as solvent in supercritical extraction method and low-temperature refrigerant, fire extinguishing agent and raw material for manufacturing tetrafluoroethylene, plasma chemical etching agent in electronics industry and raw material for fluorine compounds.
3	HFE-347 1,1,2,2-Tetrafluoroethyl-2,2,2-Trifluoroethyl Ether	56.2°C	Colorless transparent liquid 20°C	≥98%	406-78-0 Category C6 C <sub>4</sub> H <sub>3</sub> F <sub>7</sub> O	An eco-friendly solvent, used as cleaning agent and desiccant to remove dust or non-condensable gas.
4	HFE-374 1,1,2,2-Tetrafluoroethyl-2,2,2-Trifluoroethyl Ether	56.6°C	Colorless transparent liquid 20°C	≥98%	512-51-6 Category C6 C <sub>4</sub> H <sub>6</sub> F <sub>4</sub> O	An eco-friendly solvent, used as cleaning agent and desiccant to remove dust or non-condensable gas.
